# FOOT THERAPY SESSION

## Foot Relaxation Treatment

Feet and Calves

Theory of Traditional Chinese Medicine, the feet are regarded as a mirror reflecting the body's overall condition and internal balance. Prolonged sitting, standing, or daily overuse often results in fatigue, swelling, and poor circulation in the lower limbs. This Japanese-style foot therapy uses muscle-relaxing essential oils and precise massage techniques to gently work from the soles of the feet up through the calves. The treatment releases deeply held tension, enhances circulation, and restores a sense of lightness and refined relaxation to tired feet.

45min \$2,500

70min \$3,500

## Scalp Care Treatment

Scalp and Neck

This luxurious treatment gently relaxes scalp tension while stimulating key pressure points on the head and neck to enhance circulation and relieve stress. Using our signature essential oils, it delivers deep relaxation and restores balance to both body and mind. Ideal for those experiencing daily stress, eye fatigue, or neck and shoulder tension, this treatment leaves you feeling refreshed and revitalized.

30min \$2,000

## Luxury Hand Relaxation Treatment

Hands

Gently cares for and conditions the hands using aromatic essential oils, promoting circulation and relieving tension and discomfort. Ideal for those who use computers for long hours, experience hand fatigue, or wish to relax both body and mind in a short time.

30min \$2,000

## Ultimate Foot & Scalp Relaxation Treatment

Feet and Scalp

This luxurious healing treatment combines foot and scalp massage to deliver complete mind-body relaxation. By stimulating reflex zones of the feet, the therapy enhances blood circulation and relieves fatigue caused by prolonged standing or sitting. The experience is complemented by a soothing scalp massage that releases tension in the head, neck, and nervous system, helping to reduce fatigue and improve sleep quality. The treatment quickly restores balance and deep relaxation, making it ideal for those experiencing high stress or mental tension.
